Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 17-39 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claims 17-39, the phrase "plate-like" renders the claims indefinite because the claims include elements not actually disclosed (those encompassed by "plate-like"), thereby rendering the scope of the claim(s) unascertainable. See MPEP § 2173.05(d). This limitation appears throughout the claims and should be corrected.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1—39 are rejected under 35 U.S.C. 102(b) as being anticipated by Takahashi et al. and Warnecke.

Takahashi et al. discloses a braking device comprising a housing (8) with a stop area, a plate element (60) constructed such that when a pressure space is acted on, an increase in braking forces can be transferred to an object wherein the plate includes radial slits.

Warnecke discloses a braking device comprising a housing (1) with a stop area, a plate element (16) constructed such that when a pressure space is acted on, an increase in braking forces can be transferred to an object wherein the plate includes radial slits.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Morita et al. teach a similar braking device.
